

Price of standard power scale photovoltaic cabinets in australia

Overview

Compare quotes from up to 7 installers in your area now. A commonly sized 6kW Solar PV System would cost between \$4,000 and \$6,000 in most states in Australia and a 10kW system would cost between \$7,500 and \$10,500. The SolarQuotes Price Explorer shows what real Australians have paid for solar, based on thousands of quotes and reviews submitted through our website. Products of certain weights or delivery states will include a delivery charge. This pricing metric helps consumers and industry stakeholders understand the average prices of residential solar system installations across different regions in Australia. © 2025 Off Grid Solar Kits.
