

Scalable payment for solar energy storage cabinets for bridges

Overview

The GSFA Grant Advanced Rebate Payment (ARP) Program offers bridge financing to developers installing energy storage systems for vulnerable California communities in high fire risk areas, easing upfront costs and enabling wider participation in the SGIP-ERB incentive program. Michigan Saves is piloting a bridge financing program to facilitate access to the Inflation Reduction Act's (IRA's) "direct pay,"¹ also known as "elective pay," provisions for qualifying renewable energy and battery storage clean energy projects. To support customer resiliency and grid reliability, the CPUC has authorized funding of \$280 million for. Tax equity bridge loans can be a game-changer for renewable energy projects, providing a vital source of funding to help projects get off the ground. These loans can be used to cover construction costs, allowing projects to reach commercial operation and start generating revenue. FINANCING OPTIONS AND RENEWABLE ENERGY PROJECT.
