

Single-phase data center cabinets for production lines

Overview

These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors, sides and tops to provide a truly modular scalable solution. Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets. Oberon® wireless mounts and enclosures secure, protect, and optimize wireless. Nordic supplied Copper ground systems and brand name junctions are available for factory installation. Hot-dipped galvanized, silicon bronze penta-head bolt, and stainless steel hardware. The aesthetic low profile design provides unobtrusive installations for sectionalizing. Introducing Rakworx's versatile Data Center Server Cabinet Portfolio, ranging from 24U to 52U in height and 600mm to 750mm in width, with depths from 1070mm to 1200mm. Our cabinets have meshed doors and a robust six-brace design for superior load-bearing capacity. With best-in-class efficiency and redundancy design, Delta's UPS allows the greatest level of availability, scalability, and.
