AES' Meanguera del Golfo solar plant—the first of its kind in Latin America—relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El. Our solar photovoltaic energy services are diverse and meet the highest standards, custom designed for customers in the commercial, industrial and services sectors. We provide operation and maintenance services (O&M) for solar photovoltaic plants. Company. Meta Description: Explore how containerized energy storage system production in El Salvador addresses renewable integration, grid stability, and industrial demand. While the progress is commendable, particularly in solar, there is still ample room for further development and investment in the country. At the forefront of this effort is AES El Salvador, which is overseeing the full operation of its Bósforo solar project and the upcoming Capella Solar. The Law for the Promotion of the Use of Renewable Energy, approved by the Legislative Assembly in October 2025, establishes benefits aimed at generating renewable energy for self-consumption, as well as energy storage systems, their installation, operation, and maintenance.

Solar Energy Storage in El Salvador

Solar + storage

We provide operation and maintenance services (O& M) for solar photovoltaic plants. These services are provided by a team of world-class operators with support from AES El Salvador.
