

# Solar Thermal Power Sales

## Overview

---

The global solar thermal market was valued at USD 16.1 billion in 2024 and is estimated to grow at a CAGR of 9% from 2025 to 2034. Increased environmental awareness and government focus on decreasing carbon footprints will fuel product adoption. Increasing solar incentives in addition to positive. What is the size of Solar Thermal Market?

According to 6Wresearch internal database and industry insights, the Global Solar Thermal Market was valued at USD 22 Billion in 2024 and is expected to reach USD 32 Billion by 2031, growing at a compound annual growth rate of 7. Leveraging sunlight to produce heat, solar thermal power finds applications in electricity generation, hot water systems, and industrial processes. Image © Mordor Intelligence.

## Solar Thermal Power Sales

### Solar Thermal Market Size, Global Trends 2025-2034

The solar thermal market size crossed USD 16.1 billion in 2024 and is estimated to grow at a CAGR of 9% from 2025 to 2034, driven by rising environmental awareness and government efforts to reduce ...

### [Solar Thermal Energy: What You Need To Know , EnergySage](#)

There are two key methods for harnessing the power of the sun: either by generating electricity directly using solar photovoltaic (PV) panels or generating heat through solar thermal ...

### [Solar Thermal Power Market By Size, Share and Forecast 2028](#)

The global solar thermal power market is experiencing substantial growth as a pivotal player in the transition towards sustainable energy solutions.

### [Solar Thermal Market Size, Share Analysis -2031 , Industry Forecast](#)

This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the solar thermal market analysis from 2021 to 2031 to identify the prevailing solar ...

## [Solar Thermal Market Size, Share Analysis -2031 , Industry Forecast](#)

Solar Thermal Market Research, 2031 Competitive Landscape Key Benefits For Stakeholders The global solar thermal market size was valued at \$21.5 billion in 2021, and solar thermal industry is projected to reach \$35.3 billion by 2031, growing at a CAGR of 5.1% from 2022 to 2031. Solar thermal energy is a form of energy that is harvested from solar energy to generate thermal energy using various technologies for industrial use, and in r See more on alliedmarketresearch markwideresearch

## **Solar Thermal Power Market - Size, Share, Trends, Analysis**

Solar thermal power involves the use of mirrors or lenses to concentrate sunlight onto a receiver, which transfers the captured solar energy to a heat transfer fluid. The heat transfer fluid, after absorbing the ...

## **Solar Thermal Power Market Size Report, 2023**

Solar Thermal Power Market Size is valued at \$34.1 Billion by 2030 and is anticipated to grow at a CAGR of 4.5% during the forecast period 2024 -2030. Solar thermal power harnesses sunlight to ...

## [Solar Thermal Market Size, Share & Growth Trends 2031](#)

The European countries have witnessed an upsurge in the solar thermal market, with the highest consumption in solar district heating systems. The falling costs of the technology and ...

## [How big is the Solar Thermal Market , Key Drivers & Trends 2025](#)

For detailed forecasts, data tables, and competitive benchmarking, Explore the full Global Solar Thermal Market.

## [Solar Thermal Power Market - Size, Share, Trends, Analysis](#)
