

# Solar panel income

## Overview

---

Residential solar panel installation owners typically earn between \$70,000 and \$180,000 annually, influenced by location, scale, and business model. Profit margins usually range from 20% to 35% gross and 8% to 15% net, with owner income directly tied to efficient operations. The average operating cost of a rooftop solar system is now 6-8 cents per kWh, depending on its size, type of equipment, and local incentives. 1 Installation costs are dropping, too. However, this is just a ballpark estimation. Your earnings can differ depending on things like where you are, how much sun hits your panels, and what electricity costs in your area. Will Solar Panels Make You Money?

Unless you are planning to buy land and start a solar farm, the easiest way to “make money” with solar panels is to replace another expense in your life: your electric.
