

Solar panel production plant in Nigeria

Overview

Reported September 18, 2025 - Nigeria's Federal Government has made an announcement of a major step in its renewable energy drive with the signing of a landmark agreement to establish a 1,000-megawatt solar photovoltaic panel manufacturing facility in the country. With a massive 200-megawatt production capacity, the company stands as a beacon of hope in a nation plagued by erratic electricity supply. The project is expected to strengthen local production, cut import dependency, and.
