

Solar power generation application to the National Development and Reform Commission

Overview

The reform focuses on three key aspects: allowing market forces to determine renewable power pricing, establishing a pricing and settlement mechanism that supports the long-term sustainability, and adopting differentiated policies for existing and new projects. On March 26th, Zheng Shanjie, Chairman of the National Development and Reform Commission (NDRC), met with Roland Busch, President and Chief Executive Officer of Siemens AG, who also serves as Chairman of the Asia-Pacific Committee of German Business (APA). The National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) issued a notice on the "Action Plan for Optimizing the Regulation Capacity of the Power System (2025-2027)". The plan requires that by 2027, the regulation capacity of the power system. Two Chinese ministries have jointly issued a new policy to promote the full entry of grid-connected renewable energy into the power market.

The new solar energy regulations set forth by the National Development and Reform Commission (NDRC) in China focus on advancing the renewable energy sector while promoting economic growth and environmental. On January 6th, the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) issued a notice on the "Action Plan for Optimizing the Regulation Capacity of the Power System (2025-2027)". The plan requires that by 2027, the regulation capacity of the power system. Two Chinese ministries have jointly issued a new policy to promote the full entry of grid-connected renewable energy into the power market.
