

# Solar power generation prices for households in Nigeria

## Overview

---

A basic solar setup starts at ₦400,000. But here's the truth: While solar seems expensive upfront, it pays for itself in 1–3 years through fuel savings. In 2025, the average household in Lagos spends between ₦60,000 and ₦120,000 monthly on petrol or diesel for generators. This is why more Nigerians are asking: “How much does it cost to install solar panels in Nigeria today?”

” This updated guide answers that question comprehensively. You'll learn about panel prices, key components, real-life savings, and how to pick the best setup for your home. Band A customers (neighbourhoods guaranteed 20 hours of electricity daily)—now pay ₦209/kilowatt-hour.
