

Total investment in photovoltaic panels is in billion US dollars

Overview

Global investment in solar PV hit a record with USD 554 billion in 2024, up by 49%. Investment in energy transition technologies grew globally, but 90% remained concentrated in advanced economies and China, leaving emerging and developing countries behind. solar power market in 2024 was USD 53. 86 billion by 2032 at a CAGR of 11. is growing due to the rising demand for clean energy and declining costs, supported by government policies. However, asset finance for utility-scale solar and onshore wind shrank by 13% compared to 1H 2024, reaching the lowest share of total. Abu Dhabi, United Arab Emirates, November 17, 2025 - Global investments in the energy transition reached a new record of USD 2.
