

Vatican Energy Storage Site Subsidy

Overview

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole, published in Italian on May 26, 2024. He did so with the apostolic letter. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. On July 31, at the historic Palazzo Borromeo, the Holy See and the Italian Republic signed a landmark agreement to build an agrivoltaic system in Santa Maria di Galeria. Photo: Vatican Media According to the Vatican's press office, the installation will apply the most advanced solutions currently. The Vatican City, covering just 110 acres, faces unique energy challenges that make it a perfect case study for specialized storage solutions: "Protecting historical sites requires energy solutions that balance modern efficiency with cultural sensitivity.

Vatican Energy Storage Site Subsidy

Vatican Energy Storage Site Subsidy
