

# Vietnam solar energy market

## Overview

---

Vietnam's solar energy market, projected at \$29.43 billion by 2025, is set for robust expansion, driven by government renewable energy mandates, escalating power consumption, and declining solar technology prices. The Vietnam Solar Energy Market Report is Segmented by Technology (Solar Photovoltaic and Concentrated Solar Power), Grid Type (On-Grid and Off-Grid), and End-User (Utility-Scale, Commercial and Industrial, and Residential). 10% between 2026 and 2035, reaching a volume of around 35. Looking forward, IMARC Group expects the market to reach USD 904. Meaning Solar energy refers to the energy derived from the sun's radiation, which is converted into usable. The solar energy market in Vietnam is expected to grow substantially during the forecast period due to increase in investments by key players and growing electricity demand in the region Vietnam Solar Energy Market- Industry Trends & Forecast Report 2028 Vietnam solar energy market is witnessing.

## Vietnam solar energy market

### [Vietnam Solar Energy Market - Growth, Trends, and Forecast \(2025 ...](#)

Vietnam has opened its energy sector to foreign investment, allowing 100% foreign ownership in solar power projects.

### [Vietnam Solar Energy Market - Size, Share, Trends, Analysis](#)

The Vietnam Solar Energy Market showcases regional variations in terms of solar potential, market maturity, and project development. Different regions within Vietnam offer varying levels of solar ...

### [Vietnam Solar Energy Market Growth and Forecast \(2026-2035\)](#)

As Vietnam continues to transition toward sustainable energy sources, the solar energy sector plays a crucial role in achieving the country's renewable energy goals. The market's growth is

## Vietnam Solar Energy Market

Vietnam's PDP VII intends to increase the share of renewable energy to roughly 7% by 2020 and above 10% by 2030. It will also reduce the use of imported coal-fired electricity, thereby driving the growth ...

### [Vietnam Solar Energy Market Size, Share and Forecast 2034](#)

IMARC's industry report offers a comprehensive quantitative analysis of various market segments, historical and current market trends, market forecasts, and dynamics of the Vietnam solar energy ...

### [Vietnam Solar Energy Market Report and Forecast 2025-2034](#)

Vietnam accounts for 1.68% of the world's total solar photovoltaic capacity. Based on technology, the market is segmented into solar photovoltaic and concentrated solar power. The solar ...

### [Vietnam Solar Energy Market Size, Trends and Forecast , 2035](#)

The Vietnam Solar Energy market reached approximately 26.22 TWh in 2025. The market is projected to grow at a CAGR of 3.10% between 2026 and 2035, reaching a volume of around 35.58 TWh by ...

### [Vietnam Solar Energy Market Report ,](#)

## Growth Analysis, Size

Despite grid congestion in the south and execution bottlenecks for large projects, hybrid solar-plus-storage mandates and corporate offtake commitments position the Vietnam solar energy ...

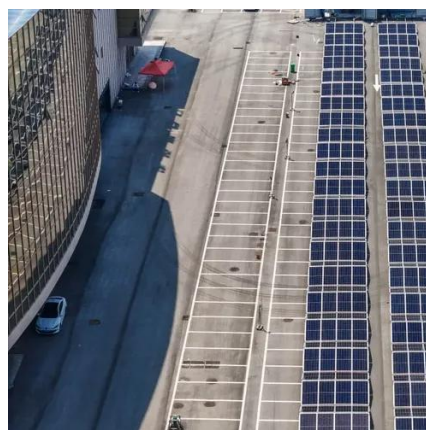

## Vietnam Solar Energy Market: Competitive Landscape and Growth ...

This in-depth report provides a comprehensive analysis of the Vietnam solar energy market, encompassing market dynamics, growth trends, key players, and future outlook.

## **Vietnam Solar Energy**

According to the IRENA Renewable Energy Statistics 2024, the installed solar PV capacity in Vietnam was around 17,077 MW in 2023, up from 16,698 MW in 2022. The growth resulted from ...
