

What outdoor power supply should I use in Spain

Overview

Typically, type C plug sockets are not allowed to be installed in Spain: these outlets are not earthed and are therefore considered dangerous. The difference between them is that Type F also has two grounding clips. Both can take any plug type with two round prongs, as long as there's. Here is a quick guide to help you figure out if you need a travel adapter for Spain: What Power Plugs and Outlets Are Used in Spain?

In Spain, there are two main types of power plugs and outlets: Type C and Type F. Like almost all Continental. More likely than not, the plug type you use back home won't be compatible with the systems in Spain, even in hotels. Spain uses two types of electrical plugs: Type C and Type F.
