

# Where is the serial number of the photovoltaic panel equipment

## Overview

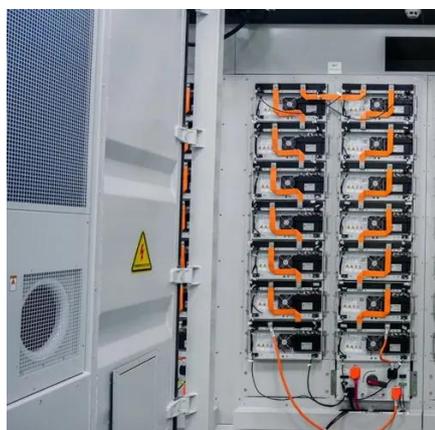

---

The part number or FGA (Finished Goods Assembly) number is on the ratings label for the equipment. @Balingit\_1999 : The Enphase app does not provide panel serial numbers in any of its displays. Alternatively, you can reach out. Serial number is the unique identifier of each PV module. A protected copy of the barcode is located on the front top-left corner under the glass and cannot be removed or damaged. The matching serial number is located on the frame and on the rear of the shipping label to ensure you received the. Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! I talked with SunPower tech support today, and they sent me the attached PDF that allowed me to decode the serial numbers on my used panels. (It turns out I bought 6 year old panels that were represented as 2. 1. Why is there not a report of "per module production in the My enlighten?

- Community | Enphase Miller\_2689 asked a question.

## Where is the serial number of the photovoltaic panel equipment

### How to find your system's serial number?

The serial number is your Site ID - a 7 digit number sequence - which can be found on the SolarEdge app, under the Site Details menu item. See the following example:

### [Astronergy Solar Panels Verification Online , Module Authenticity](#)

Module Authenticity You can find the product serial number on the module front top or the side of the module frame as shown in the figure.

### [1.How can I see the serial number of each solar panel in The "Array"](#)

To map it to your layout look at the X and Y values for placement. In my case I had to read it from bottom right to bottom left and then upper right to upper left to map the serials to my panels. X is the ...

### Serial numbers of solar panel

To track the serial numbers, the physical panels need to be checked, as SunPower panels have a serial number printed on a label, typically found on the back of the panel.

### [How to identify the serial number of photovoltaic panels](#)

erial number is the unique identifier of each PV module. A protected copy of the barcode is located on the front top-left corner under the glass and cannot be removed or damaged. The matching serial numb

## FairFleet News & Updates
