

# Which 1MW photovoltaic energy storage container installation solution is more environmentally friendly

## Overview

---

Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar). The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency. ESS Container BatterySunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale. Since years of renewable energy development, energy storage become the most critical parts, Shinson's battery ESS solutions include both residential and commercial applications, the turn-key solutions bring you much more easier way and reliabilities to benefits more from the renewable energy. We provide customers with industry.

## Which 1MW photovoltaic energy storage container installation solution
