

Will photovoltaic 330 panels be eliminated

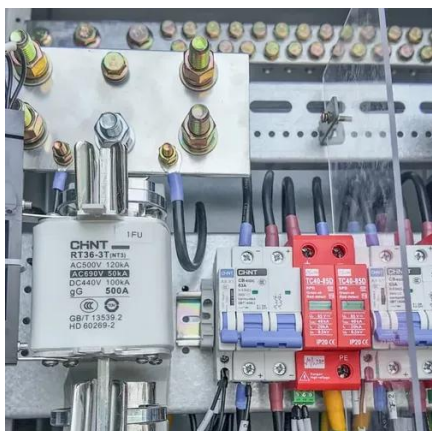

Overview

The Residential ITC will end for systems not placed in service by December 31st, 2025. Systems must be installed, inspected, and operational by the cutoff — not just contracted. Answering the Important Questions Update: As of July 4, 2025, the solar tax credit (or Investment Tax Credit, ITC) is scheduled to expire on Dec. The bill, also known as the. CUB Q&A: Solar and EE tax credits are being phased out—so what now?

In July, Congress passed H. 1, the federal budget reconciliation bill. Unfortunately, the sweeping legislation phases out a series of clean energy tax credits. State-specific programs and utility rebates (another solar incentive) will now play a larger role in calculating upfront savings, as will rising utility electric rates.
