

Wind and solar power generation policy

Wind and solar power generation policy

[Solar and wind to lead growth of U.S. power generation for the next ...](#)

As a result of new solar projects coming on line this year, we forecast that U.S. solar power generation will grow 75% from 163 billion kilowatthours (kWh) in 2023 to 286 billion kWh in ...

[Trump Administration Is Delaying Hundreds of Wind and Solar Projects](#)

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

[Strategies for climate-resilient global wind and solar power systems](#)

Our findings provide important insights for building future climate-resilient power systems while reducing system costs.

[Executive summary - Integrating Solar and Wind - Analysis](#)

This report presents a first-ever comprehensive stocktake of integration measures implemented across 50 power systems worldwide, covering nearly 90% of global solar PV and wind generation.

[A Decade of Growth in Solar and Wind Power: Trends Across the U.S.](#)

This report uses data from the EIA to analyze solar and wind capacity and generation over the past decade (2014 to 2023) in all 50 states and the District of Columbia.

Policies and Regulations , US EPA

There is a patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact your project development. It is important to understand the ...

[A review of hybrid renewable energy systems: Solar and wind ...](#)

Research, investment, and policy pivotal for future energy demands. The review comprehensively examines hybrid renewable energy systems that combine solar and wind energy ...

[Maintaining Electric Reliability with Wind](#)

[and Solar Sources](#)

Under the current regulatory framework, the federal government oversees reliability for the generation and transmission systems of the electric power sector. These components comprise the bulk power ...

Renewable Energy Pillar

Learn more about the advantages of wind energy, solar energy, bioenergy, geothermal energy, hydropower, and marine energy, and how the U.S. Department of Energy is working to modernize ...

[Secretary Burgum Announces Order to Rein In Environmentally ...](#)

WASHINGTON -- Today, U.S. Secretary of the Interior Doug Burgum signed a Secretary's Order to more efficiently manage our nation's energy resources by permitting projects ...
