

Zhongzhu New Energy wins bid for energy storage

Overview

Chinese independent power producer CGN New Energy has announced the results of its 2025 procurement for lithium iron phosphate (LFP) battery energy storage systems, which will be installed alongside solar and wind plants as well as standalone facilities. Since November, China's energy storage sector has witnessed the concentrated announcement of bid results for numerous projects across the country. Centralized independent storage, supporting storage for wind and solar farms, and commercial/industrial (C&I) storage projects are all accelerating. Gensol Engineering secured a contract from GUVNL for a 250 MW/500 MWh Battery Energy Storage Systems (BESS) project in Gujarat. Winning bidder: Shenzhen Zhonghe Energy Storage Technology Co. It is reported that this tender involves a total procurement of 3.
